Will do. We have been trying to set up a separate email box to facilitate responding to the 1000+ emails that we received. Now we are receiving snail mail letters – multiple copies of the same letter that have been sent to multiple people around the Agency. We are compiling those and will weed out the duplicates so as to send one response to each individual. Carter Jessop is drafting a standard response, and we'll be happy to share it with you once it has been finalized. FYI, we received duplicates of several items of incoming Rosemont correspondence in a Controlled Correspondence folder because they had been addressed to Gina McCarthy. We are trying to get OEX to “de-control” them so that we can handle this high volume of incoming correspondence more systematically.

**Kathleen,**

**We, like the Region, are getting requests from the public to free the Rosemont permit... I understand that you are developing a generic response for the letters that the Region receives... I am hoping that you can share your response letter so that we can use a similar letter at the HQ-level. Pls let me know if you are able to share your response letter. If you are, pls send.**

**Thanks much!**
